1. The video clip above shows Felicia’s neighborhood in the spring of 1965. Conduct research to figure out what your own neighborhood looked like during the spring of 1965. Include visuals (if possible) to accompany your description to the right.	
2. Neighborhood Walk - Take a walk around your neighborhood. Take notes on what you observe, including the public spaces and the presence of community resources. What types of buildings do you see? What public spaces are available? How do you and others interact with the environment? How diverse is your community? Think about how you fit in. Reflect on your walk to the right.	
3. Neighborhood Walk - Take photos of important monuments, locations, and spaces within your community. Include those visuals along with an explanation of their importance to the right. You will be able to use these photos in an upcoming assignment.	
4. Neighborhood Walk Extended - Compare your research to your reflection. How has your neighborhood changed in the last 60 years?
